REFLECTIVE WARNING TAPE

High quality hazard yellow-black and red-white warning tapes.

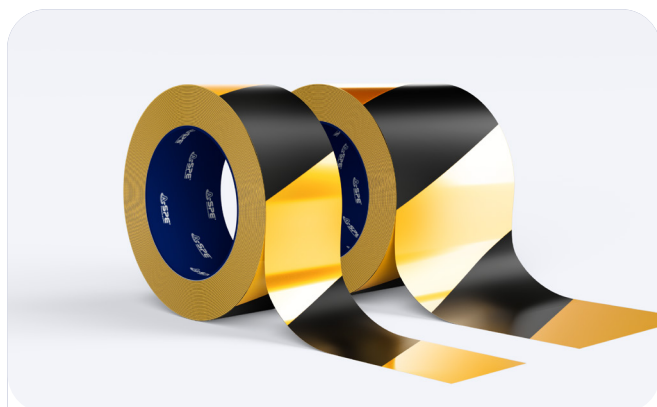

REFLECTIVE WARNING TAPE

Reflective Warning Tapes provide a highly visual hazard marking to improve safety standards during night-time, blackouts or low visibility conditions.

Their application is versatile, mainly to clearly mark dangerous places and areas, low-hanging objects and structures, machines and devices in factories.

Tapes are self-adhesive with a strong adhesive layer, suitable for indoor and outdoor use. The product is waterproof, UV and weather resistant.

150mm x 10m roll

TECHNICAL DETAILS

Outdoor durability	4 years
Application temperature	Min. +10°C
Operating temperature	From -35°C to 80°C
Total thickness (including release liner)	0,41 mm
Thickness (without release liner)	0,24 mm
Adhesive	Solvent polyacrylate, permanent
Adhesive strength	16 N/25mm , after 24h (FINAT TM 1)
Optical properties	Meets or exceeds: L-S 300C and FP-85 Type II
Weight	0,48 kg/m ²
Shelf life	2 years in original packaging, at 20°C
