STANDARD WARNING TAPE

High visibility yellow-black and red-white hazard warning tapes for industry.

STANDARD WARNING TAPE

It is the most economical solution for warning and safety marking of surfaces and equipment in warehouses and shipping areas. Especially dedicated to places of potential health risks where extra caution needs to be taken. The advantages of the tapes are their easy and quick application, vivid colours and strong adhesive to ensure a good bond with a substrate.

temperature resistance
from -40°C to +80°C

resistant to humidity,
steam, snow, dust etc.

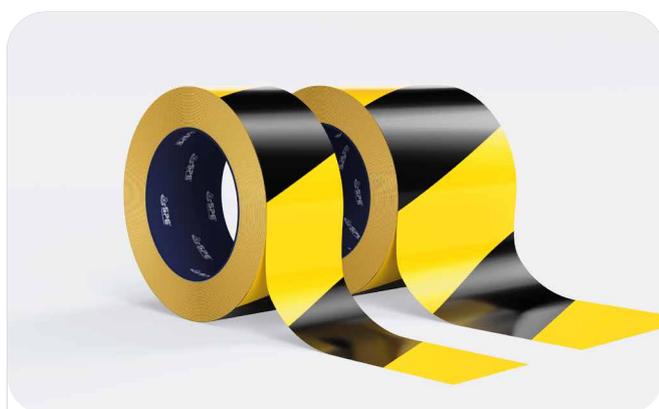

resistant to
lipids/grease and oils

resistant to weak acids
and bases

protective overcoat
against material aging

TECHNICAL DETAILS

Application temperature	Min. +10°C
Operating temperature	From -40°C to +80°C
Thickness (without glue and release liner)	0,10 mm
Total thickness	0,22 mm
Adhesive	Polyacrylate, permanent
Adhesive strength	16 N/25mm , after 24h (FINAT TM 1)
UV resistance	Good
Shelf life	2 years in original packaging, at 20°C
